MATA29 UTSC Term test 2

Courses

I swear this was one of the worst tests I've ever taken IN MY LIFE. The practice and textbook questions were srsly nothing like the test. And it's worth 25% too?!? 90% of the questions required a calculator. Even the TA laughed when we asked how to solve this without a calculator. I think Parker got too comfortable with seeing us happy with the first test lmao. No cuz this was acc hell. I'm not even over exaggerating it. I don't think the class average will be above a 40%. Literally everyone walked in smiling and walked out crying. I started laughing and hallucinating after reading the questions. Good luck guys!

Dear Prof Parker you are the most interesting and most goatest ever prof please have mercy on us b41. It is the best course I have ever had

It_Gets_Better_Bro • 1d ago

Hi Prof Parker, Please don't let this happen to MATB41 as well, the course is going well and its really enjoyable, thank you!

Biochemistry

Was it mcq like last year? I remember struggling as well with TT2

Firm_Measurement2463 • 1d ago

Yes, but we had access to last years test and it was much more doable than this years.

Open-Profit3207 • 2d ago

I'm deadass dropping out after that test, wtf was that

Nervous-Delivery1085 • 2d ago

same and i needed this for my post too so idek what to do, cuz if i stay in this class my GPA is going to be horrendous

Open-Profit3207 • 2d ago

That's exactly what I'm thinking, I'm going to wait until they release the grades and if I got a really bad mark, I'll just drop out cause I don't want it to affect my gpa. I also need calc for my post graduate studies but I guess I'll just take it again later.

Nervous-Delivery1085 • 2d ago

Same, it's disheartening how they made that test so unnecessarily difficult completely disregarding that GPA's matter for some of us. It wasn't even testing our knowledge

Financial-Mud2533 • 2d ago

it was so bad, nothing like the practice questions :(

Parker's the goat tho. You guys will be fine

Did you take this class before? If so what were the class averages for the term tests?

Technical-Two-4808 • 2d ago

Any questions you remember

Gullible-Gene8582 • 2d ago • Edited 2d ago

V= 4/3pie • r• h, we had r, h, V, dh/dt, find dr/dt smt along those lines (this is to be fair one of the easier questions)

Another one being: use P^2=X^2 +Y^2 (pythagorean) given P, X, and Change in X, find speed it smt i think.. distance/time type of thing

These were the only ones I remember on the first page, everything after was just not doable in my opinion without a calculator

CheekKooky7826 • 19h ago

this is exactly how it was last year as well, high grades on tt1, bad/mid on tt2, and an absolute disaster on the final. Hopefully this year it doesn't follow that trend to the final

Outrageous-Text9691 • 2d ago

Oh my god..I was planning on taking this thinking its easy if we dont need a calculator...

skippingpenguin01 • 2d ago

It's all downhill from here

Aggressive_War_9595 • 2d ago

was it mcq?

Horror

Former-Jicama-5878 • 2d ago

the lucks gone after that term test
